*Mary Ellen Andrews on site painting April through May of 2011.*

Mary Ellen Andrews will be exhibiting her works as artist in residence at the Western Colorado Botanical Gardens during the months of July and August. Mary Ellen Andrews is in the permanent collection of The Art Center and continually paints and exhibits in the Grand Valley and across the United States.

If you stumbled across an artist painting at the Botanical Gardens this spring, it was probably Mary Ellen Andrews. These spring time works will be on display in the library at The Gardens in July and August.

*"This was an incredible experience for me, one that involved a relationship with not only the environment of the Botanical Gardens, but its volunteers, visitors and staff, as well as the Art Center. I look forward to sharing this experience with you."*

In conjunction with the July and August exhibit, the Botanical Gardens will host the Art Center curator, who will present the film *Claude Monet*. This film takes you through the work of impressionism's most famous artist Claude Monet. Monet, like Mary Ellen, found a muse of a garden and made a portrait of this site through a series. The film will start Saturday, July 16th, at noon. Bring your lunch and get inspired at The Gardens.
